The RGW Law Firm has become a patron of the second edition of the Polish Tech Night conference that will take place on 21 June 2017 in Berlin.

The goal of the Polish Tech Night is to promote international cooperation between entrepreneurs and investors from Poland and Germany. During the conference current challenges that start-ups

are facing as well as influences of computerisation and automatization processes on the image of modern business will be discussed.

About 150 start-ups and investors from IT and related industries will take part in the project. Polish and German representatives of the politics and administration announced their participation in the conference.

The event is held under a honorary patronage of the Ambassador of Poland in Berlin.
